Cancer Fact of the Week

Did you know a simple camera flash can reveal eye cancer?

Retinoblastoma is a rare type of eye cancer that affects children.

Sometimes, a flash photo can reveal a white reflection in the pupil instead of the usual red.

This called leukocoria and can be an early warning sign of cancer

Oct 30

PANSEXUAL

Pansexuality is attraction to **any gender**, because gender isn't the main factor. What matters more is **the person themselves**. It doesn't mean being attracted to everyone, just that gender doesn't decide who attraction can happen with.
