

SUPPORTING STUDENTS WITH TYPE 1 DIABETES IN THE SCHOOL SETTING

Type 1 Diabetes is one of the most common chronic diseases among children and youth. School District No. 43 (Coquitlam) is committed to providing appropriate care and supports for students with Type 1 Diabetes in the school setting to ensure student safety, well-being and optimal academic performance.

Effective management of Type 1 Diabetes requires meticulous balancing of diet and physical activity with insulin intake. Supports will vary depending on the age and needs of the student.

The school district is committed to collaborating with parents/guardians to support students with Type 1 Diabetes in the school setting with the goal that the student becomes independent with their care.

The Coquitlam School District is committed to following the [Provincial Standards: Supporting Students with Type 1 Diabetes in the School Setting](#)
