

SCHOOL DESIGN TEAM

Background

With the changes in curriculum and the ongoing growth of the community and the school system, it is important to ensure that input and involvement is received from staff at all levels to meet the District's requirements.

To ensure the quality of school construction to meet health, safety, educational, energy conservation, and maintenance requirements of the District, a School Design Team will be designated by the Superintendent.

Procedures

1. The composition of the School Design Team shall be designated by the Superintendent.
2. The School Design Team will act as an Advisory Group to the Executive Director of Facilities and Planning Services or designate with respect to the educational and facilities components of school design.
3. The School Design Team will meet with the Executive Director of Facilities and Planning Services or designate throughout Schematic Design and through the educational components of Design Development.
4. The School Design Team will incorporate best practice educational and facilities research and philosophy into the school design.
