Digital Learning 10 Course Outline (2026-2027)

Course Purpose

To improve students' understanding, attitude, and behavior as global digital citizens. A global digital citizen strives to establish a sense of global community in all online and offline relationships, duties, and endeavors.

Course Requirements

- Access to a device and district Office365 account (Microsoft Teams)
- All grade 9 students are enrolled in this year-long (linear) course
- Students must know their DL-10 teacher

Course Structure

- This class runs outside of the timetable from September to June
- No set meeting times
- Monthly in-person tutorials

Teachers

- Mr. **Karmali** (fkarmali@sd43.bc.ca)
- Mr. **Papillo** (tpapillo@sd43.bc.ca)
- Mr. **Raabe** (braabe@sd43.bc.ca)
- Ms. **Thomas** (dthomas@sd43.bc.ca)

Fluencies Developed

- **Personal Design Choices**
 - You will explore and improve your skills to make better design decisions.
- **Social and Ethical Impact**
 - Learn how your design choices affect society, ethics, and sustainability.
- **Technology's Influence**
 - Understand how tools and technology change people's lives.
- **Ethical Use of AI and Information**
 - Learn to use artificial intelligence and information in ways that are ethical, accurate, and beneficial.
- **Executive Functioning**
 - Focus on recognizing areas of executive functioning and applying strategies to work on improving areas of organization, time management and working memory.

Big Ideas

1. Personal design choices require self-exploration and skill refinement.
2. Social, ethical, and sustainability considerations impact design choices.
3. Tools and technology impact people's lives.
